

**FOR IMMEDIATE RELEASE**  
**STANLEY ROAD BRIDGE REPLACEMENT PROJECT**

The Portage County Board of Commissioners recently awarded a contract for the replacement of the bridge structure on Stanley Road in Windham Township. The bridge is located just south of the intersection of Werger Road and Stanley Road over Mahoning Creek. Portage County Engineer, Larry Jenkins, said that the Commissioners opened bids for the project in August and construction will start at the end of October. The contract includes the installation of a new bridge structure, including minimal approach work matching in kind the roadway conditions. Jenkins, said the Commissioners awarded the contract for this work to Winters Excavating LLC out of Stow, Ohio, in the amount of \$552,289.00. Jenkins said that only one bid was received, and Winters Excavating LLC came in just over the engineer's estimate of \$505,770.00. The County Engineer's Office was successful in obtaining a Federal Grant that covers nearly 100% of the cost of the construction. The bridge and all roadway work is to be completed by December of 2023. A detour for the closure will be posted in the field and on the County Engineer's web site. Jenkins said the County has hired CTL Consultants, Inc., to perform the construction contract administration and inspection. If there are any questions about the project, please contact Mike Collins, Project Manager or Bill Vermes, Bridge Engineer in the Engineer's Office at 330-296-6411.
