DIVERSION SERVICES

DIVERSION SERVICES PROGRAM

The Department of Diversion Services provides the Court with an alternative, informal sanction in the non-judicial processing of unruly, minor delinquencies and/or school referral, while at the same time holding youth accountable for their actions. Youths in the program are frequently referred to community resources to address their individual needs.

The Diversion Services Department utilizes community service as part of its informal sanction. The Diversion Services Department had 13 youths complete a total of 160 community service hours. Also, 78 youths participated in the Community Service Food Drive, totaling in 3,350 non-perishable items being donated to non-profitable organizations in the community.

**PSYCHOLOGICAL
AND
SUBSTANCE ABUSE SERVICES**

Psychological and Substance Abuse Services

PSYCHOLOGICAL AND SUBSTANCE ABUSE SERVICES MISSION STATEMENT

The role of Psychological and Substance Abuse Services is to provide the Portage County Court and Portage/Geauga Juvenile Detention Center professional clinical and assessment services as a part of the overall rehabilitative effort. To assist in rendering appropriate dispositions that take into consideration the individual needs, characteristics and circumstances of the children in question, the Court orders evaluations to aid in generating case recommendations. It is hoped that by earlier identification of potentially serious offenders, the community can be more effectively protected, while at the same time, by more clearly delineating issues to be addressed as part of a rehabilitative program, more children can be effectively served resulting in less recidivism.

GENERAL SERVICE DESCRIPTION

Psychological and Substance Abuse Services staff conduct evaluations for the Court to assist in generating recommendations for case dispositions. Additional services provided include diagnostic assessments, substance abuse assessments, mental health screening, short term counseling with detained children, consultative services, treatment planning and referral, psychological screening of applicants for employment, and conducting in-service training programs.

PSYCHOLOGICAL ASSESSMENTS 2017

In 2017, thirty-eight (38) children were referred to Psychological Services for evaluation. The assessment process includes parent and child interviews, psychological testing and preparation of a written report. Reports will vary in nature depending on the reason(s) for conducting the assessment and the issues that need to be addressed. The following represents the types of psychological evaluations conducted in 2017.

<i>Type of Evaluation</i>	<i>Total</i>

Total Reports	38

All children admitted to the Portage/Geauga Detention Center are also screened at the point of intake by Detention Center staff in an effort to identify high risk residents. In addition to direct inquiry into areas related to risk to self and/or others, each child completes a structured questionnaire designed to obtain specific information regarding potential areas of risk. Subsequent to the child's intake and admission all residents (with the exception of weekenders and those released immediately following a preliminary hearing) are interviewed by a qualified mental health professional and a mental status examination is completed. Residents held in detention on a post adjudicatory status are also administered an academic achievement test and often an objective psychodiagnostic personality inventory to further assess for various areas of potential concern, psychological disturbance and/or other rehabilitative needs. Psychological Services staff review all intake and/or assessment materials generated on each resident as part of a coordinated effort to appropriately respond to resident needs/concerns during their period of detention. In 2017, intake reports and assessment materials were reviewed on one hundred and sixty-three (163) new or repeat admissions to the Portage/Geauga Detention Center.

Psychological Services staff are also available to Detention Center staff and residents upon request to provide direct clinical counseling, assessment, and consultative services. In 2017, in addition to reviewing resident intake and assessment materials, Psychological Services staff provided direct clinical counseling/crisis and assessment services on an as needed basis to sixty (60) new and/or repeat residents. The following table provides statistics regarding child assessments and general clinical services provided to residents during 2017.

CLINICAL COUNSELING AND ASSESSMENT SERVICES	RESIDENT INTAKE AND ASSESSMENT REPORT REVIEWS	TOTAL

TREATMENT PLANNING, COORDINATION AND REFERRAL TO LOCAL COUNSELING AGENCIES

In addition to Psychological Services' primary role of conducting assessments and providing clinical counseling and consultative services to the Courts and Detention Center, it frequently acts in a coordinating capacity with other involved agencies. In keeping with the Juvenile Court's goal of minimizing a child's involvement in the legal system, efforts are directed toward providing for the child's rehabilitative needs by utilizing services offered by local child care agencies. Psychological Services staff participate in regularly scheduled in-house staff meetings for case planning, as well as attend bi-monthly and monthly clinical team meetings to assist in formulating rehabilitative service plans with other involved agencies.

When specific recommendations for treatment are made a part of a case disposition or terms of a child's probation, Psychological Services often assists in initiating the referral process, monitoring and/or tracking progress in treatment, and maintaining appropriate contact with local service providers. The following represents the number of children referred for out-patient treatment services monitored and/or tracked by Psychological Services.

SUBSTANCE ABUSE ASSESSMENTS 2017

The Court's Substance Abuse Services processed (134) referrals for chemical dependency assessments during 2017. A total of one (1) youth was referred immediately following assessment for inpatient/residential chemical dependency treatment and eleven (11) additional youth were subsequently referred for placement in residential programs, post assessment. Two (2) out of the eleven went to treatment twice.

There was a total of eighty-eight (88) youths referred for individual chemical dependency counseling.

The following table is a break down, based on referral source, of the total number of assessments conducted, followed by the treatment recommendations generated for the different levels of care, and finally some biographical information regarding the juvenile's assessed.

2017 PORTAGE COUNTY JUVENILE COURT

**PROBATION DEPARTMENT
AND
INTENSIVE PROBATION DEPARTMENT**

Department of Probation Services

The Department of Probation Services consists of two divisions: Intensive Probation and Regular Probation. Officers are responsible for supervising youth and enforcing probation terms as well as assisting with rehabilitation. This consists of conducting home, school, and office visits. Both divisions assist youth in meeting treatment needs through the coordination and monitoring of treatment plans.

The Department of Probation Services conducted three (3) Ohio Department of Youth Services Evaluations and twelve (12) Pre-Dispositional Investigations for the Judiciary. Two (2) youth were committed to the Ohio Department of Youth Services in the calendar year. The Probation staff administered five hundred and thirty-six (536) drug screens. Fourteen percent (14%) of those screens were positive for at least one drug. Seventy-seven percent (77%) of positive drug screens were for marijuana. The remaining positive screens were comprised of cocaine, methamphetamines, amphetamines, morphine, phencyclidine and benzodiazepines. Sixty-seven (67) notices of alleged probation violations were filed. Sixty-seven percent (67%) of those notices were drug related.

Of all youth on Probation at the end of 2017, ninety-six percent (96%) were enrolled in school, graduated, obtained a General Equivalency Diploma, or were participating in an alternative educational program. Regular Probation had a rate of ninety-eight percent (98%), while Intensive Probation had a rate of ninety-one percent (91%). Further, at the end of 2017, youth on Probation who were referred, currently involved, or completed counseling services for mental health and/or substance abuse was eighty-four percent (84%). Regular Probation had a rate of eighty-three percent (83%), while Intensive Probation had a rate of eighty-eight percent (88%).

The Department of Probation Services utilizes a risk assessment tool and written formal case plans. These plans discuss the goals of probation and how the youth will meet those goals. Officers review the case plans with the youth and parent(s) and all parties sign the plan.

The Probation staff is trained in Effective Practices in Community Supervision (EPICS). This is an evidence based program designed by the University of Cincinnati to reduce recidivism by addressing criminal thought behaviors and criminogenic needs of higher-risk offenders.

The Probation Department has two (2), trained and certified, Officers that implement Cognitive Behavior Intervention for Substance Abuse (CBI-SA). This program was developed by the University of Cincinnati and designed for substance abusing moderate to high risk youth. It uses a cognitive behavioral approach done in a group setting by teaching participants how to identify, avoid, and manage triggers. The program targets thoughts and feelings that directly impact substance use. The two (2) Officers, along with a Court employed licensed chemical dependency counselor, who is also certified in CBI-SA, facilitate the program on a weekly basis for thirty-nine (39) weeks.

Regular Probation 2017

The Regular Probation Department is responsible for supervising any youth ordered by the Court. Probation terms and case plans are implemented which the youth are required to follow. Youth in this program meet weekly with Probation Officers for the first month of supervision. Staff has the discretion of gradually stepping down the level of supervision dependant upon a child's behavior and progress. Youth in this program have been adjudicated on felony, misdemeanor and unruly offenses.

Intensive Probation 2017

The Intensive Probation Department is the highest level of supervision for an offender. Probation Officers provide a highly structured system of supervision ranging from four (4) contacts per week to a minimum of one (1) contact per week. Youth in this program are typically felony or chronic offenders at risk of being committed to the Ohio Department of Youth Services.
