RE: Recall Announcement (ODA/ODH) 2018-043b

NutriZone Recalls Various Lots of Multiple Dietary Supplements Because of Possible *Salmonella* Health Risk

NutriZone, LLC of Houston, Texas is expanding its recall of various kratom dietary supplements to additional lot numbers, which contain the same source material as the original recalled lots. The expanded recall is being conducted out of an abundance of caution.

The recall of dietary supplements is due to the potential for contamination with *Salmonella*. *Salmonella*, is an organism which can cause serious and sometimes fatal infections in young children, frail or elderly people, and others with weakened immune systems.

Healthy people infected with *Salmonella* should monitor themselves for some or all of the following symptoms: nausea, vomiting, diarrhea or bloody diarrhea, abdominal cramping and fever. Rarely, *Salmonella* can result in more serious ailments, including arterial infections, endocarditis, arthritis, muscle pain, eye irritation, and urinary tract symptoms. Consumers exhibiting these signs after having contact with this product should contact their healthcare providers.

The dietary supplements are labeled and packaged as follows:

Attached are images of product labels to aide in identifying product associated with this recall. Lot numbers can be found on the packaging near the Nutrition Facts Panel.

The products were sold in Pennsylvania, Oklahoma, Washington, Missouri, Florida, Mississippi, California and Texas.

No illnesses have been reported to date in connection with this problem.

The potential for contamination was noted after routine sampling and testing by the FDA revealed the presence of *Salmonella*.

Consumers who have purchased the products listed above should discontinue use of the product and may return the unused portion to the place of purchase for a full refund. Consumers with questions may contact NutriZone, LLC, at 1-800-936-7936, Monday through Friday, 9am-5pm Central Standard time.
