

Portage County Combined General Health District Operation Permit for Household Sewage Treatment System

999 East Main Street, 2nd Floor • Ravenna, Ohio 44266
Phone: 330-296-9919 • Fax: 330-297-3597

Septic Tank to Sand Mound

HEALTH DISTRICT

This operation permit shall be in effect upon PCHD's final evaluation & approval of the HSTS installation. All operation and maintenance requirements indicated on the approved design plan must be followed.

Service/Monitoring/Maintenance Frequency: One time per year

OPERATION & MAINTENANCE REQUIREMENTS:

- Check sludge levels in tanks and pump when needed.
- Checking surface grade/vegetative cover for erosion or settling & any evidence of seepage.
- Checking for ponding in the distribution area.
- Checking for surface water infiltration or clear water flows from the dwelling or structures into the system components & around or onto the soil absorption area.
- Monitoring dose volume & operating pressure head of the distribution system & compare to baseline measurements.
- Monitoring for proper operation of mechanical components and/or distribution methods.
- Flushing of distribution laterals.
- Review & document event counters, elapsed time meters, flow meters, & alarm conditions where present.
- I understand that if sanitary sewer becomes available and accessible, I must properly abandon my HSTS, regardless of functionality, and connect to the sanitary sewer at the time it becomes available.

This Operation Permit is valid for a period of 3 Years from the effective date. Thereafter, it will expire & will be renewed at a fee, provided compliance with all applicable O&M requirements has been demonstrated at the specified frequency.
